

What is the Safe travels Stamp?

The safety and hygiene of our travelers are our highest priority!

The stamp allows travelers to recognize companies around the world that have implemented global standardized health and hygiene protocols, adopting best practices so that our travelers can experience 'Safe Travels'. The World Travel & Tourism Council (WTTC) Safe Travel Protocols take into account the current guidelines of the World Health Organization (WHO) on COVID-19.

That is why at BD Experience we implement protocols that align us with common standards, helping to restore confidence and security to our collaborators and travelers as the tourism sector advances towards a new normality.

Disclaimer.

It will be the responsibility of our service, tours and activity providers to adopt their own global standardized protocols, for which BD Experience is not responsible, nor does it assume any responsibility for the implementation of said protocols by their providers, as they cannot guarantee the 100% security.

Therefore, BD Experience, as well as the subsidiaries, affiliates, offices under its direction, shareholders, officers, directors, administrators, heirs, executors, lawyers, successors, are not responsible, nor do they assume any responsibility regarding: claim for payment and / or reimbursement and / or request for medical care, nursing care, ambulance transfer,

hospitalization, physical therapy, psychological therapy, request for healing equipment, medications, and / or any other service or treatment given by the professional of the health or non-professionals, or any other type of demand that may have, for any reason, have, have, or will have, for any reason, cause, including all legal actions that have been or could have been filed due to the implementation of global standardized health and hygiene protocols.
