

Cancun, Quintana Roo, October 5, 2020

## The hydrometeorological phenomenon Delta evolved into a hurricane.

BD Experience informs that, before the imminent arrival of Delta, it is necessary to take all the necessary measures to guarantee the safety of its customers.

According to official information from the Quintana Roo authorities, in their report at 8:30 pm, hurricane Delta category 1 is located 920 kilometers from the coast of Quintana Roo.

Given the proximity of the system, the authorities issued a Green Alert for the municipalities of Tulum, Solidaridad, Cozumel, Puerto Morelos, Cancun, Isla Mujeres, and Lázaro Cárdenas, while a Blue Alert was declared for Felipe Carrillo Puerto and José María Morelos; Bacalar and Othón P. Blanco remain without alert.

With this in mind, we are waiting and ready to follow up on the instructions of the Civil Protection authorities, however, given the uncertainty of the behavior of this hydrometeorological phenomenon, we suggest that our mutual clients return to their countries of origin.

As we mentioned, at BD Experience, we are prepared to provide our clients with the security they require, but, in these cases, it is always better to give tourists peace of mind regarding the possibility of returning to their homes and avoid inconveniences of this type of natural phenomena.

Sincerely,

**Laura Triay**
